From all parts of the country reports come of the immense sales and increasing demand for that deservingly popular Sewing machine, The Old Reliable "Sandard," the price of which the proprietors wisely reduced to \$20, including all the attachments, and at once secured for them a popularity among the people, far beyond that ever yet attained by any other machine at any price, the consequence of which is, agents are leaving the old high priced machines, and seeking territory for the o'clock a. m. This splendid Machine combines all the improvements. Is far ahead of all others in beauty and durability of its work, ease of management, light running and certain of operation, is sensibly made upon principles, with positive working points all steel, and can be safely put down as the very perfection of a serviceable Sewing Machine, in every particular, that will outlast any machine, and at a price far down below any other. It is thoroughy warranted for five years. Kept in order free of charge. And sent to any part of the country for examination by the customer before payment of the bill. We can predict equally as large a demand for them in this section as in others. Families desiring the best machine manufactured should write direct to the factory. The result of these diseases upon the masses of the people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment usefullness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skeptcism, take the advice of druggists and your friends and try one bottle of Green's August Flower.
